EDUCATION

- Harvard College** Cambridge, Massachusetts
• *Bachelor of Arts - Mathematics; GPA:*
Relevant Coursework: Math 55, Physics 16, CS 50
September 2026 - May 2030
- Weston High School** Weston, Massachusetts
• *High School Diploma; GPA: 4.0 UW*
Relevant Coursework: Multivariable Calculus, Linear Algebra and Differential Equations, Ordinary Differential Equations, Complex Analysis
September 2023 - May 2026

EXPERIENCE

- Fiera Capital** Singapore
• *FX Risk Management and Strategy - Intern*
July 2025
 - Qunatitative FX Strategy:** Developed applied mathematics and quantitative analysis skills to evaluate FX hedging opportunities and currency exposure across multiple investment strategies.
 - Risk & Performance Analytics:** Analyzed large-scale fund performance over NAV, PnL, and return time-series datasets using statistical-based metrics to assess risk-adjusted returns.
 - Data Integrity & Architecture:** Conducted system transition assessments and portfolio-level reconciliation to ensure data integrity and operational continuity.
- Conjuguemos International** Remote
• *QA Software Engineer*
June 2025 - Present
 - Concept Validation & Iteration:** Contributed to the design and development of language-learning games by supporting early-stage concept testing and iteration.
 - Test Engineering & Documentation:** Designed, executed, and documented comprehensive test cases for interactive conjugation tools.
 - Product Refinement & QA:** Helped refine product features through structured feedback, improving software reliability.
- Weston High School DECA** May 2025 - June 2026
• *Co-President*
Weston, MA
 - Leadership:** Led a 200+ member chapter; coached peers in public speaking & competition strategy
 - Logistics:** Organized mock preparation events with other chapters.

PUBLICATIONS

- **Conference Lecture: On Graphical Minimal Surfaces and the Homotheticity of Singular Behavior in Mean Curvature Flow:** Presented in January 2026. Joint Mathematics Meetings. <https://doi.org/10.5281/zenodo.16903054>
- **Paper: On Approximations and Homothetic Behavior in Mean Curvature Flow:** Published in April 2026. UNSW Sydney Parabola. <https://doi.org/10.5281/zenodo.17705821>
- **Paper: On Convex Kinematics: A Resurrection of Holditch's Theorem:** Published in August 2025. UNSW Sydney Parabola. https://www.parabola.unsw.edu.au/sites/default/files/2025-08/vol61_no2.4.pdf

PROJECTS

- :

HONORS AND AWARDS

USAPhO 2026 - Distinction for Commendable Performance: Issued by American Association of Physics Teachers
F=MA 2026 - Top Scorer (~ Top 400 Nationally): Issued by American Association of Physics Teachers
Jane Street Estimathon - First Place: Issued by Jane Street at Joint Mathematics Meetings 2026
National Merit Semifinalist 2027: Issued by National Merit Scholarship Corporation
Entrepreneurship Series - International Finalist & State Champion: Issued by DECA

LANGUAGE PROFICIENCIES

- **English:** Fluent
- **Spanish:** Fluent (Official Seal of Biliteracy)
- **French:** Intermediate
